Objective

Aspiring developer eager to apply my knowledge in AI and ML, along with my web development skills, to solve real-world problems and contribute to impactful projects.

Projects

Debug Your Soul

A website for technical event, with 4 rounds aptitude MCQs, error finding, output guessing and code conversion. Build using sveltekit, prisma, trpc, zod

E Learning Platform

A platform connecting students with complementary skills, featuring personalized profiles. Built using Next.js, Prisma, Express.js, Socket.io

Smart Resource Allocation & Supply Chain Optimization for Healthcare

The platform allows healthcare facilities and humanitarian organizations to manage, track, and optimize the distribution of essential resources, especially during critical times. Built using Next.js, Google Maps api.

Car Rental System

Java-based platform for renting cars, providing a structured system for users to manage car rentals.

Education

BTech in AI and ML

From NMAM Institute of Technology

PCMCs, Vidyodaya, Udupi

Completed my 2nd PUC with 95%

Dr. MRSM English Medium High School

Completed my 10th with 85%

Skills

- **Web Development:** React, tailwindcss, firebase, Next.js, Svelte, SvelteKit
- **Languages & Tools:** Java, C/C++, Python, Git, GitHub, Prisma, tRPC, zod
- **Databases and Cloud:** CockroachDB, PostgreSQL, Supabase, SQL, Firebase, Supabase

Experience

Web Domain Head - Computer Society of India (CSI)

- Mentored 100+ students in web development.
- Responsible for maintaining and updating the CSI committee website.

Technical Member - TASC (Turing Artificial Intelligence Students Committee)

- Conducted technical events and maintained the committee website.

Achievements

- Won third place in DevHost HackNight Hackathon conducted at Sahyadri College
