Objective

Seeking entry-level developer position to apply my knowledge in AI and ML, along with my web development skills, to solve real-world problems and contribute to impactful projects.

Projects

Resume Builder

A full stack web application built with Vite, React, and Firebase, that allows users to create, save and manage resumes. Implemented user authentication and dynamic form rendering

FinAi

Financial chatbot which generates a personalized investment plan based on the user inputs.

To-do app

A full-stack web application designed for task management, built using SvelteKit for the frontend, Prisma for database interactions, and tRPC for type-safe API communication. The application includes Google authentication for secure user verification and personalized task storage.

Portfolio Website

A website showcasing my skills and projects

Education

BTech in AI and ML, NMAM Institute of Technology

From NMAM Institute of Technology

PCMCs, Vidyodaya, Udupi

Completed my 2nd PUC with 95%

Dr. MRSM English Medium High School

Completed my 10th with 85%

Skills

- **Web Development:** React, tailwindcss, firebase, Next.js, Svelte, SvelteKit
- **Programming Languages:** Java, C/C++, Python
- **Database Management:** CockroachDB, PostgreSQL, Supabase, SQL
- **Tools:** Git, GitHub, Prisma, tRPC, zod
- **Cloud Platforms:** Firebase, Supabase

Experience

- Completed 4 weeks AI and ML internship at [SystemTron](#)
